BOARD OF PUBLIC WELFARE

To the Honorable Board of Public Welfare:

I herewith submit my report on Old Age Assistance, Aid to Dependent Children, Disability Assistance and Public Welfare for the fiscal year ending December 31, 1954.

During the year 41 applications have been received and disposed of as follows:

19	Approved
3	Referred to other agencies
5	Withdrawn
12	Denied
1	Died before eligibility could be determined
1	Pending

During the year 21 cases have been closed for the following reasons:

2	Transferred to other towns
4	Deaths
15	Ineligible

Total amount expended in all categories		$47,787.36
Received:		
Federal Reimbursements	$18,119.64	
State Reimbursements	14,542.16	
Cities and Towns	995.89	
Temporary Aid	332.84	
Recoveries	749.64	
	$34,740.17	34,740.17
Net cost to town		$13,047.19

A State Medical Plan, uniform in pattern throughout Massachusetts, was put into effect on July 1, 1954. The plan provides for high standard medical services to public assistance recipients and is designed to cut medical costs. Due to the complexity of the plan, it has greatly increased the duties of the administrators in the cities and towns.

A plan for intensified services to Aid to Dependent Children recipients became effective February1, 1954. The State Department has established the requirement that all families receiving ADC shall be visited at least once a month rather than every three months. The public welfare agency shares a concern for the quality of care given to children as well as the financial needs of the family. Notice is sent to the appropriate law enforcement officials of the furnishing of Aid to Dependent Children in all cases involving desertion and nonsupport. One petition has been entered in Fourth District Court under the Uniform Reciprocal Enforcement of Support Act and action is pending. The ADC caseload varies little, there being 7 cases on 1/1/54 and 8 cases on 12/31/54, 18 children being aided.

The number of Old Age Assistance cases has decreased. On 1/1/54 there were 29 cases and on 12/31/54 there were 24 cases, although there is one case pending. Since the lien law became effective on 1/1/52, there have been fewer applications due to the reluctance to have liens placed upon real estate as a condition of receiving Old Age Assistance. As liens are enforced, the net cost of Old Age Assistance will be decreased. One lien is in the process of being enforced.

The Disability Assistance program which has been in effect for three years, continues to increase. It is meeting the needs of thirteen persons who would otherwise be supported entirely by twn funds. Three applications are pending the decision of the Medical Review Team. In the program of Disability Assistance, a basic factor which must be established is that the applicant be "permanently and totally disabled." Re-

cipients in this category usually require regular medical services which tends to make the program costly.

The Public Welfare caseload remains small, there being 5 cases on 1/1/54 and 4 cases as of 12/31/54. Recipients in other cities and towns holding Carver settlement have been in need, however, which increases the total amount paid for Public Welfare.

Increased Old Age Survivors Insurance benefits effective September 1, 1954 have been reflected in the decreased grants of five recipients. As OASI benefits increase, public assistance grants will decrease.

The Plymouth County Relief Officers Associatoin meetings have been regularly attended as well as the conference of the American Public Welfare Association and Massachusetts Conference of Social Work.

I wish to express my appreciation to the Board Members for their cooperation during the year.

Respectfully submitted,

VIOLA S. GRIFFITH,

Agent.

Report of Ralph E. Washburn, Trustee under the will of Benjamin Ellis, for the benefit of the Fourth School District of Carver, Massachusetts

---

In 1952 it was voted by the School Committee to discontinue the use of the Benjamin Ellis School because of the opening of the new school. Because of this the terms of the trust under the Will of Benjamin Ellis providing for employment of a teacher could no longer be carried out. Under the terms of the will and trust of Benjamin Ellis it was provided that if the school ceased to be used, the funds in the hands of the trustee should be paid to the heirs of Benjamin Ellis.

Upon a petition to the Plymouth County Probate Court seeking a decree of the court as to whom the assets of the trust fund should now be paid, it was determined and decreed by the Court that after the payment of legal services and expenses as set out in said decree the balance should be paid one half to Zaidee Ellis Gaff of Paget, West Bermuda, one quarter to Helena E. Bailey of Warrenton, Virginia, one quarter to Stuart E. Elliott of San Raphael, California, they being all the heirs of said Benjamin Ellis and entitled to said fund.

The assets in my hands as Trustee consisted of twenty (20) shares of Boston & Albany Railroad stock and a small balance in the checking account of the National Bank of Wareham. My account as Trustee from the time of my appointment in 1940 to the present time has been drafted and is to be duly presented to the County Probate Court in the near future for allowance and for my discharge as Trustee.

Respectfully submitted,

RALPH E. WASHBURN

REQUIREMENTS FOR ADMISSION TO FIRST GRADE

1. A child who will reach his sixth birthday on or before December 31st may be admitted to the first grade in September, 1955, without examination.

2. A child whose sixth birthday occurs in the two months after December 31st may be admitted the preceding September if readiness for school can be demonstrated by means of appropriate tests. Parents having a child whom they wish to be examined under this rule are required to make application to the Superintendent of Schools on or before August 15th preceding the opening of school in September. A special form will be furnished for this purpose upon written request from the parent.

CLOSING OF SCHOOLS

It is the policy of the School Committee to close school only under the severest weather conditions or on such occasions when it is dangerous to operate school buses. At other times, parents are expected to use their own judgment in sending children to school. When a decision to close sehools has been made, this information will be broadcast through the courtesy of radio stations WBZ, WNBH and WBET. The no-school signal will also be given on the local fire warning apparatus. This signal is two short blasts sounded three times.

From records of the School Committee:

Voted: That the report of the Superintendent of Schools and other officers of the school system be hereby adopted as the report of the School Committee for 1954.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the members of the School Committee:

In accordance with the practice developed over several years and continued, this report together with that of the Principal and other persons connected with the School Department and with the several statistical tables continues to serve as the report for the School Department for the calendar year just ended. A report of this sort, general in nature, can, at best, touch upon only those important decisions and can deal only briefly with many appointments which required much more consideration than space given in this report might indicate.

On February the Committee gave consideration to several names proposed for the school by various interested citizens and others. After proper weighing of all the factors involved, it was unanimously desided that the name submitted by the Carver Historical Society was best suited for the purpose, and it was accordingly adopted. Henceforth the school will be known as The Governor John Carver School.

In reviewing the work in the School Department for the year just closed, it is apparent that many of the decisions which the School Committee has had to make have been, more than ever before, decisions in respect to policy.

There has been no year since I have been writing these reports when it has been found necessary to record so many changes in the teaching staff. In the cases of all the resignations recorded for major positions, with one exception, they have been submitted, not because of dissatisfaction with teaching in Carver, but because of the attractiveness of better pay

elsewhere or in combination with locations nearer to home. It is in this fashion that Carver finds it necessary to deal with what is likely a double problem —

a. The supply of locally available teachers is restricted, and,

b. Salary scales in neighboring communities continue to rise so that it makes it a very simple matter for the neighboring communities to look to the town paying lower salaries as a source of teacher supply.

As described in the annual report for last year, the first salary schedule for teachers in the history of the town was adopted and put on record by the School Committee and that, as such, constituted a good start toward a solution of the problem of a planned salary program. However, in June of this year, the teachers requested a meeting with the School Committee for the purpose of revising the plan of application fo the salary schedule suggesting that it would be more in keeping with the times and realistic in dealing with the problem of teachers' pay if the amount of the annual increments were stepped up and the advance could be more rapld on the salary scale. The Committee took this problem under consideration and during the middle of the summer announced that a change would be made upward, subject to the appropriation by Town Meeting of sufficient additional funds for this purpose. The dicision was returned in this manner, because in the middle of the year it seemed unwise to take money away from other projects already planned and if a departure were to be made from the salary plans already established, that people in general should have an opportunity to know this. As matters developed later, the proposed town meeting was not forth coming, and in October, it then being possible to better determine if surplus funds existed, the School Committee voted an increase in salaries retro-active to September 1, 1954, and added the following provisions to become a part of the salary schedule previously announced last year:

The following Amendments of the Salary Schedule were adopted in principle by the School Committee on July 22, 1954

and on October 4, 1954 were voted to become a part of the Salary Schedule for teachers retro-active to September 1, 1954.

a. For those whose salaries are *under* $3,000.00 and, subject to the reservation under "c", the annual increment shall be $2,00.00.

b. For those whose salaries are *$3,000.00 and over*, the annual increment shall be $150.00.

c. The salary of a teacher entering service in Carver and the annual increment at the end of each of the first two years of service shall be set at the discretion of the School Committee.

d. The minimum and maximum salaries stated in the schedule of August 3, 1953 shall continue to be effective, together with the other general provisions.

e. Salaries of principals and/or others having special administrative of supervisory responsibilities shall be set at the discretion fo the School Committee.

The other major problem which has received a good deal of attention this year has been in the nature of devising a plan whereby there could be a reasonably falr and even distribution of pupils to teachers. To properly work out such a problem, it meant that additional teachers would have to be added to the staff, but sufficient appointments were made possible so that such a policy could be carried out. At the opening of the calendar year, a combination 5th-6th grade was established and the numbers of the 7th grade being high, two sections of the 7th grade were established when school opened in September. A further revision in grade-teacher assignments was approved at the close of this calendar year as the number of pupils in the combination grade 3rd-4th section had fallen to 17. Reassignment of pupils in the 3rd-4th grades will make it possible for Mrs. Cole to be trasferred to 7th grade work for the balance of the year and in this manner filling a vacancy

which will be created by a resignation from Mr. Foster, there being reason to believe his resignation will be submitted soon.

Resignations and elections, chronologically through the year, have been as follows:

Suzanne F. Burbank, elected to replace Florence L. Gordan, whose resignation was reported in last year's annual report. Mrs. Burbank is a graduate of the Bridgewater State Teachers' College in 1941 with 4½ years previous teaching experience in primary grades.

Virginia C. Smith, resigned, to teach in Middleboro, Mass.

Hattie J. Griffith resigned, to accept a position in Marion, Mass.

Mary E. Giberti, elected to take up an extra section of grades 5-6. Mrs. Giberti was graduated from the Plymouth High School in 1931 and the Bridgewater State Teachers' College in 1935. She has taught 5½ years in Plymouth, several of these years being in the work of remedial reading.

Ruth B. Walker, elected to replace Virginia C. Smith. Mrs. Walker is a graduate of Plymouth High School, The Boston University College of Liberal Arts, degree A. B., with the degree A. M. from the graduate school of the same college. Mrs. Walker had done substitute teaching, had been a librarian and a social worker and is now making teaching her life work. Several coursese in the field of Education have already been completed to gain theory in her chosen field.

George Drake, resigned, to accept a position in Lincoln, Mass. The Committee made a vigorous attempt to induce Mr. Drake to remain but the circumstances at the time seemed to be such that there was no way this could be possible.

Winifred H. Nickerson, elected to replace Mrs. Hattie Griffith. Mrs. Nickerson was graduated from the high school at Appleton, Wisconsin, and entered teaching in Massachusetts in

1921. Before coming to Carver, Mrs. Nickerson has had two five-year periods of teaching, nearly all of this in the primary grades; fourteen courses have been completed which serve toward degree requirements.

Walter S. Foster, elected to take up classes created on account of the second section of the 7th grade which was set up. Mr. Foster was a graduate of Quincy High School, 1938, a graduate of the Massachusetts Maritime Academy and University of Massachusetts, 1951. As the end of the year approached, it was known that Mr. Foster would shortly be resigning.

Mrs. Phyllis Foster, elected to teach Art, one day weekly, resigned in December.

Mr. Noel Chadwick, elected to take up part of the teaching work left vacant by the resignation of Mr. Drake. Mr. Chadwick had all of his education in France, although a U. S. citizen all the while. He came to this country a few years ago to make his permant home here and has entered upon a career of teaching.

The matter of suitable arrangements for high school education has been one of the prominent problems of the committee this year. As reported last year, it was known that June 1955 was the limit of time when pupils could attend Plymouth High Schools. An application had been made to the Silver Lake Regional School to determine if membership for Carver was a possibility, but answer was returned from the official board of that district that such a move would not seem feasible at that time. Assurance has been given, however, of at least temporary accommodations for the pupils of grades nine through twelve, and it will be to this school that pupils will be sent, beginning in September, 1955. In order to make the transfer as satisfactory as possible for both the Regional staff and the Carver pupils, a registration conference was arranged on November 29th when the Superintendent, Principal and Assistant Superintendent of the regional district came to Carver

to meet the high school pupils, speak about the new school, answer their questions and advise on matters of registration in the new school. The remaining problems of enrolment were settled through the efforts of Mr. Shaw working with Mr. Creighton, Principal of the Silver Lake School, in cooperation with the advisors of Carver pupils at Plymouth. All seems in readiness for a smooth entry into secondary school work under the new plan.

Beyond the compass of the detail of immediate solution to the problem of secondary school accommodations, Carver has wisely voted to set up a Regional School District Planning Committee. Such a committee cannot act in independence but must act in connection with one or more such committees from other municipalities. For the most of the year it has been impossible to have any organization so that this question could be actively studied, other than such investigations which might be made toward the direction of the Silver Lake School. However, toward the close of the year, developments came to the point where several of the nearby towns will wish to be active in such a study. The year 1955 should be one of considerable progress in this respect and it may be quite possible that the way may be open to answer the question for all time. There can be no doubt about it that small towns ought to be members of a regional school district, share in ownership of the physical plant, thus insuring to citizens and pupils alike for all time that there would be a place and a plan for secondary education which could not be changed from one year to another.

There was some activity in the matter of transportation contracts this year. Inasmuch as there would be a major change in the routes for buses following entry into school attendance at the Silver Lake Regional, it was decided, after receiving word from the Deputy Commissioner of Education that the reimbursement would be safeguarded, that present contracts would be extended for a period of one year, there being little

need of bidding new routes for only a one year pariod and then repeating the process when the major change in routes would take place.

Bids for transportation to Vocational School were called for this year. Two bids were filed, those of Mrs. Sarah Holmes and Mr. Aime Desroches. Mr. Desroches was low bidder and the award was made to him for a three-year period.

There are a number of other matters which should be touched upon briefly in the public record. The School agement and it continues to remain posslble to operate the Cafeteria continues to remain under the same efficient man-lunchroom without any appropriation of expense on the part of the town. We feel fortunate that the staff, as organized, continues with us. In addition to meeting expenses, several improvements in equipment have been made through expenditures from realized profits. The serving counter was re-built, a protective glass case installed, a tray slide was added, and the dish and silver equipment brought up to full supply. All of this was done through the investment of accumulated surplus, over and above expenses.

A revised report card has been worked out this year for the middle and upper classes and after approval by the School Committee, has been placed in use. An effort was made to simplify the card somewhat from the type previously used and to design a card which would be as effective as possible in reporting the pupils' school progress to parents.

The usual repairs have been made as the need occurred. There is a certain minimum to be expected in any sort of plant operation which has as many mechanical devises as a modern school must have. Continued effort has been made to improve and check the effectiveness of the system for heat distribution in order to assure most economical and satisfactory operation.

Further investment has been made in new equipment this year; a number of items for the shop and an additional sewing machine for Domestic Arts, portable coat racks, etc.

Plans have been started for landscaping the school and an investigation among several of the leading persons and firms in this area who would be in a position to suggest suitable proposals for this sort of work. Resulting from this, the committee selected Mr. Marinus Van der Pol, and an agreement was made with him to construct a basic plan which might be used over a period of time for the full development of the front of the property. In addition to this, an agreement was entered into with Brady and Ward for the erection of a suitable set of letters to be placed on the upper front of the building which will give the name of the school, as adopted earlier in the year.

Bids were solicited this year for the annual supply of fuel oil, for the bottled gas used at the school, and for the milk furnished the cafeteria. In the case of the first two items, the awards were made to Nathan G. Roby, and the contract for supplying milk to McIntires Dairy, East Bridgewater.

Further investment was made in the planned clearing of additional areas of the playground space, work being done in the areas used by both the younger and older children. The Parent-Teacher Association financed the cost of materials to provide the baseball backstop, the work being performed by Mr. Drake and boys of his classes.

As the years pass, we try to administer and offer as sound a program of education as is possible for the town to support. The costs for education, as other worthwhile services, continues to rise. In the long run, however, it is doubtful if there is any other service offered citizens which reaches as many persons equally as the public school program. It is our purpose to continue in our efforts to provide the children of Carver with as sound and thorough a program of education as possible.

We in the schools appreciate the active and continued interest which the members of the committee have made in urging and supporting a vigorous and forward-looking plan for schools.

REPORT OF THE PRINCIPAL OF THE CONSOLIDATED SCHOOL

To the Superintendent of Schools:

I herewith submit my report as principal of The Governor John Carver School for the calendar year of 1954.

In my previous report mention was made of the several basic texts added during the year. These books have now been in use long enough to give them the opportunity to demonstrate their worth. In the case of the arithmetic text there is general agreement as to its excellence. Universal approval on the part of the teachers is given to the new spelling system. Many of the teachers feel that a modified use of the new penmanship system would produce as good results with some reduction in cost. The language series now in use in the schools was introduced here in 1943. Some consideration should be given its replacement during the coming year.

During the last half of the school year 1953-1954 the testing program was carried out. Intelligence tests were given to pupils of grades I, III and VII, and achievement tests were given to all grades. From the intelligence test we are able to determine the degree of school work the pupil is capable of doing: from the achievement tests we find the actual achievement of the child. These tests bring to light areas of strength or weakness in a child and are used by teachers in individual work with the pupils. At that time the Iowa Every Pupil Tests of Basic Skills were used.

In my last report I recommended that the teaching of grades IV and V be spread among three teachers rather than between two teachers. This was followed in April when Mrs. Mary Giberti was added to the staff. The move resulted in the

easing of the teacher load and allowed for more individual and remedial work.

One feature introduced during the year was the program exchange among the schools of Carver, Marion and Lakeville. Marion brought its student orchestra to Carver, the pupils of Lakeville sang a cantata for one of our assembly programs, and Carver's grade VIII presented a historical pageant at the Lakeville school. Plans are being made for a further exchange of pupil programs. Pupils of grade VIII have joined Rochester and Lakeville in school dances.

The basket ball program reached a point of great success under the coaching of Mr. George Drake when Carver tied for first place with Marion and Mattapoisett in the recently formed Miles Standish League. The work in basket ball is now being coached by Jerome Santos, a senior of Plymouth High School. Student enthusiasm is most promising for a good season. This fall the league staged a field day at Mattapoisett with girls taking part as well as boys. Carver emerged from the event with the top score. The Miles Standish League now includes schools of Carver, Freetown, Lakeville, Marion, Mattapoisett, and Rochester.

Early in the year the school became officially known as The Governor John Carver School, a name suggested by the Carver Historical Society. To commemorate the event the graduation exercises dealt with episodes in the life of Plymouth's first governor. The American Legion essay award was won by Edith Shaw, the American Legion Auxiliary Poster contest was won by Roswitha Bernhardt. A list of graduates follows:

The school year of 1954-55 opened in September with an enrollment of 289 distributed by grades as follows:

Grade I	39	Grade V	44
Grade II	32	Grade VI	31
Grade III	39	Grade VII	41
Grade IV	35	Grade VIII	28

Two sections each for grades V and VII were created, the other grades being left as of last year. A drop in the enrollment of grades III and IV and the resignation of Mr. Walter Foster will make advisable a resectioning of the grades freeing a teacher from the staff to fill the vacancy.

Ten children are studying musical instruments under the instruction of Mr. Fred White of Attleboro who came here to fill the vacancy left by Mr. Herman Young of Hull. Group lessons have been added for violin students. A small instrumental group made its first public appearance at a recent assembly. More children should be encouraged to avail themselves of Mr. White's excellent instruction.

Seventy titles were added to the school library during the school year. Mrs. Marion Griffith serves as librarian while I give weekly instruction in the use of the school library to pupils of grades VII and VIII.

The school drawing program is now handled by the classroom teacher in the lower grades and by Mrs. Doris Moore in grades V-VIII. This change was brought about by the resignation of Mrs. Walter Foster early in December.

The annual magazine drive brought to the school a profit of $235.11 while the sale of the group pictures netted the school $20.88. The sum of $21.30 was collected for the American Legion Poppy Drive.

The school lunch program is continuing with its excellent success established in its first year of organization. The pupil participation is still high averaging in excess of 97%. Three civic organizations, The Firemen's Auxiliary, The American Legion Auxiliary, and the newly formed Kiwanis Club make regular contributions for needy children. Following is a financial statement for the year:

Brought Forward	$794.81
Sale of Pupil Lunches	8,642.20
Sale of Teacher Lunches	632.10
Commonwealth	3,612.14
Other Income	7.10
	$13,688.35

Expenditures:

Food	$8,216.16
Wages	4,491.00
Service	330.65
Supply	54.38

New Equipment	577.72
Balance	18.44
	$13,688.35

The teachers join me in this opportunity to thank you for the aid and encouragement you have given us. We wish that you convey to the members of the Carver School Committee our sincere appreciation for their support.

Respectfully submitted,

HENRY M. SHAW,

Principal.

SCHOOL NURSE

To the Superintendent of Schools:

Herewith I submit my report to the Town of Carver for the calendar year just closed.

Too much cannot be said about the importance of our school examinations as required by law for in many instances vision impairment, loss of hearing, speech defects and orthopedic abnormalities which have escaped the notice of parents, have been discovered in this manner.

Physical examinations were conducted again this year by Dr. Vernon Mayo and parents of children in Grades 1 and 4 were cordially invited to be present. These invitations are recommended by the State Department of Health and we urge parents to be present whenever possible to discuss with the physician any problem pertaining to the health of their child. As of last year only pupils in Grades 1, 4 and 7 were given these appraisals.

Pure Tone Audiometer tests were given in groups of ten to pupils in Grades 1, 3, 5 and 7. This proved to be a superior method to the larger group of 24, since this may be done in a smaller space, namely the nurse's office. 143 pupils were present— 2 failed and 2 are under treatment.

Also, pupils in these grades were screened by the Massachusetts vision test— 13 failures being noted and eleven corrections have been made.

However, beginning next year, under the new ruling, pupils in all grades— 1 through 8 will be given both vision and hearing tests.

In the Spring whooping cough was prevalent and two cases of Jaundice were reported to the school.

To stimulate interest in the chest X-Ray Program sponsored by the Plymouth County Health Association, the film, "Rodney" was shown to the Junior High Group. This was held in June and participation was 100% in Grades 7 and 8. All late-reports were negative.

Mrs. Tassinari, Dental Hygienist from the State Department of Health made a dental survey in the Fall. 270 pupils were examined and this service has stimulated much interest in the field of dental health. Certificates are being received each week stating that all necessary corrections have been made.

Our hot lunch program is a vital contribution to the health and welfare of our children as evidenced in our spring and fall weighing.

Pre-school visits and questionnaires to obtain health information for all entering children were conducted again in May.

I have made 92 visits to the Gov. John Carver School, 60 to the homes of pupils involving transportation to their homes when ill, clinics, doctors' offices and general welfare problems.

Again my sincere thanks to Mr. Austin, the School Committee, Junior Red Cross, teachers, parents and interested friends for their continued interest and support.

Respectfully submitted,

MADELINE A. BAKER, R. N.

Public Health Nurse.

SCHOOL SUPERINTENDENCY UNION NO. 40

Report of the Secretary

The annual meeting of the School Superintendency Union No. 38 was held in the Consolidated School in Rochester, April 26, 1954.

The following officers were elected for the coming year: Chairman, Harold L. Griffith, Jr., Secretary, Marion N. Peirce.

At this meeting it was agreed that in the future, questions of Union salaries should be taken up at the Fall meetings, to give the Town Committees definite figures to use in making up their respective school budgets for the year.

Mr. Austin explained a project of the Teachers Association of the Union regarding a Science Study, and the Union Committee voted to contribute $100.00 toward the expense of this project.

Mr. Austin gave an interesting report on the National Convention of Superintendents at Atlantic City, and also the State Meeting in Bridgewater.

The semi-annual meeting of the Union was held at the Governor John Carver School in Carver, November 12, 1954.

After the regular business of the Union had been transacted, there was further discussion of Regional High Schools, as neighboring towns had evinced interest in the matter, and the Union committee wished to go on record as favouring further study of Regional Schools by Regional Committees.

The Committee wishes to thank Mr. Austin for his efficient management of the Union business, his promptness in furnishing us with desired information at all times, and his unfailing interest in anticipating educational and business requirements of the Union.

Respectfully submitted,

MARIAN N. PEIRCE,
Secretary.
